

DINESH PISE

Flutter & Dart Developer | Cross-Platform Mobile Engineering | 6+ Years

+91 9145636375 | pisedinesh77@gmail.com | <https://www.linkedin.com/in/dinesh-pise-441a112a5/>

Pune, Maharashtra, India

PROFESSIONAL SUMMARY

Results-driven Flutter & Dart Developer with 5+ years of experience delivering production-grade cross-platform mobile apps for Android and iOS. Specializes in AI-assisted development workflows, clean architecture, BLoC/Cubit state management, and mobile CI/CD. Proven track record across fintech, entertainment, and edtech — shipping 5+ apps to Google Play Store and Apple App Store in Agile/Scrum environments.

TECHNICAL SKILLS

Languages	Dart (Null Safety, Async/Await, Streams, Isolates, FFI), Java, Kotlin, python, swift
Framework	Flutter SDK 3.x, Flutter Web, Cross-Platform (Android & iOS), Cupertino, Material Design 3
State Management	BLoC / Cubit, GetX, Provider, Riverpod, Asynchronous Programming
Architecture	Clean Architecture, MVVM, MVC, SOLID Principles, Mono-repo, Dependency Injection (get_it, injectable)
APIs & Data	REST APIs, GraphQL, Dio, HTTP, XML-RPC, Offline-first, Hive, SQLite
Payments	HyperPay, RazorPay (via Method Channels & Platform Channels)
Firebase	Firebase Crashlytics, Remote Config, FCM (Push Notifications), Cloud Firestore
Testing	Unit Testing, Widget Testing, Golden Tests, Integration Testing, TDD, Code Coverage
Cloud	AWS, Azure, GCP
DevOps/CI-CD	Kubernetes, docker, container, Bitrise, FVM, Melos, Git, Bitbucket, SVN, Jira, App Flavors, Build Variants
Security	SSL Pinning, Root Detection, Guardsquare, App Obfuscation
AI Tooling	GitHub Copilot, Antigravity, Claude Code, Cline, ChatGPT / GPT-4, LLM-based Coding Assistants, Prompt Engineering, AI Code Evaluation
Design Tools	Figma, Adobe XD, Pixel-perfect UI, Responsive Layouts, Accessibility (a11y), Localization (l10n)
Deployment	Google Play Console, App Store Connect, Deep Linking, In-App Purchases

PROFESSIONAL EXPERIENCE

Software Engineer — Flutter & Dart | Globant India Pvt. Ltd. | Pune, India Nov 2023 – June 2026

- Engineered Seven Entertainment Parks (KSA) — a high-traffic amusement park ticket booking app serving 50,000+ daily active users, live on Google Play Store and Apple App Store.
- Integrated AI-assisted development workflows (GitHub Copilot, GPT-4) to accelerate Flutter UI implementation and API integration, improving sprint velocity by ~20% while maintaining production code standards.
- Evaluated AI-generated Dart/Flutter code for correctness, scalability, and edge-case safety; identified async race conditions, improper widget tree structures, and scalability anti-patterns before integration.
- Led performance profiling initiative: reduced app binary size by 22% via tree-shaking and asset optimization, eliminated memory leaks, and improved frame rate on low-end Android devices.
- Implemented BLoC/Cubit state management with 85%+ unit test and widget test coverage; integrated GraphQL and REST APIs, HyperPay payments via native Method Channels, Firebase Crashlytics, Remote Config, FCM, and Google Maps SDK.
- Resolved complex cross-platform bugs including asynchronous state race conditions, platform-specific rendering differences, and API response inconsistencies across Android and iOS.
- Enforced Clean Architecture across a Mono-repo (Melos, FVM); conducted structured peer code reviews enforcing SOLID principles and Flutter best practices for a team of 6 engineers.

- Applied advanced security stack: SSL Pinning, Root Detection, Guardsquare obfuscation; managed App Store Connect and Google Play Console release pipeline end-to-end.

Software Engineer — Flutter & Dart | Finoux Solutions Pvt. Ltd. | Mumbai, India Dec 2022 – Jun 2023

- Developed MO RIISE — MOFSL's investment platform for stocks, IPOs, and mutual funds — with Flutter (BLoC, REST APIs, RazorPay, eKYC) for Android and iOS, onboarding 10,000+ registered users.
- Built Login, eKYC, and Mutual Fund modules with 90%+ test coverage; identified and resolved 15+ edge-case failures and async logic inconsistencies before production release.
- Managed code versioning via SVN; delivered 4 client build releases with zero critical post-release bugs.

Flutter Developer | PragmaticTechsoft Pvt. Ltd. | Pune, India Dec 2021 – Dec 2022

- Built and published 3 cross-platform Flutter apps integrating Odoo CRM via XML-RPC; implemented Provider state management and handled asynchronous data flows for B2B enterprise clients.
- Delivered pixel-perfect UI implementations from Adobe XD designs with responsive layouts across 15+ Android and iOS screen sizes.
- Managed end-to-end deployment to Google Play Store and Apple App Store — including release signing, compliance review, and versioning.

PUBLISHED PROJECTS

SEVEN Entertainment Parks (KSA) — Flutter, BLoC, GraphQL, HyperPay, Firebase Crashlytics/Remote Config/FCM, SSL Pinning, Google Maps | [Android](#) | [iOS](#)

MO RIISE (MOFSL) — Flutter, BLoC, REST APIs, RazorPay, eKYC | [Android](#)

Apex Classes Edutech — Flutter, Provider, Firebase | [Android](#)

Evrad-iSerife — Devotional audio e-book app, Flutter, Firebase | [Android](#)

EDUCATION

B.E. Computer Science | SanjayGhodawat Institutes, Shivaji University, Kolhapur 2019

Relevant Coursework: Data Structures & Algorithms, Mobile Computing, Software Engineering, Object-Oriented Programming, Computer Networks
